Zup! 5 is a game about fun, puzzles and other things. Look for items to help you get through levels, avoid killer and watch out for spikes on walls. Support: Zup! 5 is an Unity project, so you need Unity 5.0 or higher to run it. On PC you need a PC with the following requirements: - i5 or i7 CPU - 8 GB RAM - Windows 7 or later How to install: 1. If you bought the Zup! 5 DLC, please go to the "Zup! 5" section in Uplay, download the DLC and unzip it, put the Zup! 5 folder inside the "Zup! 5" section in Uplay 2. If you bought the Zup! 5 DLC on Steam, go to the Library section in Steam and right-click on Zup! 5 DLC and choose "Properties" 3. Run Zup! 5 from your hard drive Guide to Zup! 5: Instructions: Controls: Move: WASD Attack: LEFT CLICK Spins: SPACE Shop: ENTER Beware of the traps: X Before each level you need to find the slot machine and put in coins. Each level has 5 levels. On the levels it is about to get to the first shop, there's a yellow energy bar with an exclamation mark at the left of the screen, you have to wait until it's full to continue. Once you got the full bar, the shop is unlocked and you have to get the items and continue. Level 1: Level 1 is very simple. It's about to be a supermarket and you have to put the stuff in the correct spot to build the mini-store. Turn around once you got the essential stuff and don't forget to click the "on" button. Level 2: You have to escape the horse. The horse needs a chain to move. Next level is about to get a worker. Level 3: You have to reach the truck. You have to jump over the barrels. On the last level you have to push the boxes to the right side of the screen and make the truck fall and the boxes to fall. Level 4: The first part of this level is about to get a cart, you have to push it. The next part is about to get the pig. Level 5: You have to do the mannequin in the

Virtual Pilots can fly and land any of the commercial and military airports featured in the scenery. All of these airports are designed to give a realistic feel of operating in the area. The airport features 3 runways, complete with TSO and PAPI display boards, as well as an excellent array of lighting technology to add to the realism. The airport also includes a dock with fixed and rotary operated tie-downs, as well as a full scale terminal building, and feature details such as a control tower, air traffic control tower, runway signs, tower lights, painted markings on runways and taxiways, plus many other features. Unique large aircraft and vehicles are included, as well as other objects such as helicopter pads, fuel trucks, parking and passenger pick-up vehicles, signage and small buildings. The airport also has an extensive set of taxiway lighting, lighting towers, and ILS signals included. An airport terminal is included with the scenery. The terminal is set at the western end of runway 01/19. The terminal is a multi-floor building set in a typical Alameda County airport terminal configuration. Both the airport's Terminal and the runway are highly detailed, featuring airport signals, GPS/MAP, taxiways, aircraft tie-downs, as well as a moveable decal system on the terminal roof. A wide variety of model buildings are also included, in accordance with the look and feel of the airport. This includes a small hangar with a single hangar bay and a room above for mechanics' or mechanics' office. A helipad is included, as well as the paved runway. A parking apron is also included. The parking apron is completed with four parking spaces and two bicycle parking spots. A large high definition model of the city is included, set at an appropriate height for modeler to place cityscape buildings, bridges, parks, etc. - you can place them any height, and scale to your own preference. A ground object list is
